

DIGITALIZATION OF THE ŠV-20 FORMS

This is to inform the students of the Faculty of Medicine that a pilot project for the digitalization of ŠV-20 forms is being implemented in the 2026/2027 academic year.

Completing the electronic ŠV-20 form is mandatory for all students across all study cycles, except for first-year students (freshmen).

In addition to the hard copy of the ŠV-20 form—which you are still required to submit upon enrollment this year—you must also complete the electronic version of the ŠV-20 form through the system.

You can fill out the electronic form using the following link: <http://istrazivanje.fzs.ba/visoko/prijava/sv20>

Upon successfully completing the form, the system will generate a verification code. You are required to present this verification code to the Student Services office when submitting your enrollment documents, as it serves as proof that you have successfully completed the electronic version of the ŠV-20 form.

Please complete the electronic form before arriving at the Student Services office and have your verification code ready upon submitting your documentation. **Without the provided verification code, your enrollment documentation for the upcoming semester cannot be accepted.**

Please enter the required information carefully and verify its accuracy before submitting your application.
